

Palenque Full Day

Hiking – Archaeology.

Palenque like you've never seen it before; an experience that will make you see archaeological tours in a different light. Cultural and challenging, it keeps you living in the moment as you learn about Mayan culture and feel the most mystical corners of the jungle.

The best option to make the most of your trip to Palenque.

What is it?

It's a guided experience that involves an archaeological reconnaissance stage, where the group explores and learns about the civilization that once took place in Palenque. Then, in a second stage, hidden jungle trails are traversed leading to less-visited places where abandoned ruins, aqueducts, and springs are found, surrounded by dense vegetation; all the while learning from the explanations provided by our guide throughout the journey.

Everything is designed so that your only concern is to enjoy your visit and learn. You can take all the photos you want in the most special corners of Palenque and make your visit to Palenque fun.

What's included?

1. In this tour, water is on us. You are guaranteed a water bottle that you can refill halfway through the tour (or at any of the springs you encounter). Also, if you prefer to bring your own bottle, you can refill it at the beginning of the tour, during the mid-tour break, and at the end to freshen up.

2. We want you to explore every corner and we know you'll need energy for that, so before noon, we'll have a jungle lunch prepared for you to recharge your batteries.

3. All entrance fees and transportation are included; we take care of getting you there, bringing you back, and being available at all times in case of any contingency. The vehicle will wait at the archaeological zone, ensuring it's always on time to assist you.

4. We have various contingency amenities for your comfort. Towels and refreshing wipes will be available at certain parts of the tour. Additionally, we have first aid equipment and personal hygiene products if needed.

5. In this tour, you won't be alone; an experienced guide will be your host throughout the journey. They are trained to address any questions about the Mayan civilization, Palenque and its surroundings, as well as the flora and fauna of the region. They will ensure to showcase the different facets of Palenque.

6. After a great hike, it will be time to replenish all the energy expended. So, at the end of the tour, while we refresh ourselves with a cooler full of drinks for the heat, we'll head to a specially prepared meal for you; a three-course menu with *refillable* drinks included.

What to bring?

1. As a good adventurer, it's essential to wear comfortable yet protective footwear. We recommend closed-toe, lightweight athletic shoes. If possible, trekking shoes would work perfectly.

2. Although not essential, insect repellent and good sunscreen can make your tour more enjoyable.

3. You don't need to worry about the cap because we'll give you a commemorative one. However, it doesn't hurt to be prepared with a long-sleeved shirt, sunglasses, and your favorite hat.

4. If you enjoy getting wet and fully experiencing nature, we recommend wearing your swimsuit under your clothes. There will be opportunities to cool off in the purest waters of the jungle streams and pools.

5. A small backpack will allow you to carry your personal items more comfortably and have your adventure kit handy (although it's not necessary). We recommend bringing it in case you need a change of clothes, cameras, or any other personal requirements
